SUMMARY

Flutter developer with **2.5+ years** in student-lending fintech, shipping **3 products** across the loan lifecycle: the LOS Portal, Partner Portal and Kuhoo Student App (Android & iOS, **150K+ downloads**: **100K+** Play Store, **50K+** App Store). Cut manual effort by **70–90%** across credit, partner and servicing workflows through **RBI-compliant** journeys, from onboarding to **CKYC**, sanction and post-disbursement.

TECHNICAL SKILLS

Flutter & Dart: State Management (BLoC, Cubit), Clean Architecture, REST API Integration, Dio, GoRouter, GetIt (Dependency Injection), Freezed / JSON Serialization, Flutter Web, Responsive UI, Material 3, Platform Channels, FCM Push Notifications, Deep Linking, Offline-First Design

Quality: Unit Testing, Widget Testing, TDD, SOLID, MVVM, ViewModel, Firebase Crashlytics

Release & DevOps: Fastlane, Play Store, App Store, GitLab CI/CD, Git, Gradle

Working Procedure: Agile / Scrum, Low-Level Design (LLD), Design Reviews with Product and Backend Teams

Also: MFA, JWT, Data Encryption, Flutter Secure Storage, SQL, Firestore, Firebase Remote Config, Java, React/Next

Tools: Claude Code, Cursor, VS Code, Android Studio, Xcode, DBeaver, Jira, Swagger, Postman

EXPERIENCE

Software Development Engineer I (SDE I) | Kuhoo Finance, Mumbai

May 2024 – Present

Stack: *Flutter, Dart, BLoC, Clean Architecture, REST APIs, GoRouter, Firebase, Fastlane, GitLab CI/CD, Claude Code*

- **End-to-end ownership:** Owned features across **3** products, from requirement analysis and low-level design (**LLD**) to release, partnering with product, backend, design and credit teams in Agile/Scrum sprints.

Loan Origination System (LOS) Portal | Flutter Web

- **Loan sanction:** Redesigned the sanction workflow and UX to put every applicant detail in front of the credit team, **cutting sanction time by 80%**.
- **Multi-insurance:** Introduced multi-insurance selection into the loan flow, **reducing the credit team's manual effort by 70%**.
- **Document downloads:** Shipped post-disbursement downloads for **4** document types (**SOA, IC, NOC, RPS**), giving LOS users complete applicant records.

Partner Portal | Flutter Web

- **Lead onboarding:** Launched the platform where agents and onboarded partners submit loan leads.

Kuhoo Student App | Android & iOS · 100K+ Play Store, 50K+ App Store downloads | Google Play | App Store

- **Post-disbursement:** Engineered the post-disbursement journey with self-serve **SOA, IC, NOC and RPS** downloads, **eliminating 80% of manual effort**.
- **Repayment plans:** Added predefined **EMI** repayment plans for customers, making repayment simpler and more predictable.
- **Push notifications:** Drove in-house push notifications from requirement to production with **FCM** and native platform channels.
- **CKYC:** Designed the in-app **CKYC** journey, replacing the credit team's manual **CKYC** calls and making applications **fully compliant**.

Cross-Platform Features | Web, Android & iOS

- **Security (MFA & encryption):** Implemented multi-factor authentication (**OTP/TOTP**), **JWT**-based sessions and data encryption across **3** platforms (web, Android, iOS), protecting sensitive applicant and loan data and supporting regulatory compliance.
- **Application stability:** Diagnosed and fixed crashes via root cause analysis (**RCA**) and **Firebase Crashlytics**, improving app reliability.
- **DigiLocker & Account Aggregator:** Defined and integrated **2** flows, **DigiLocker** and **Account Aggregator**, for a seamless, document-free journey with minimal manual input.
- **Release & CI/CD:** Enhanced the **CI/CD** pipeline and automated Android and iOS releases via **Fastlane** and **GitLab CI/CD**.

SDE Intern | Kuhoo Finance, Mumbai

Jan 2024 – May 2024

Stack: *Flutter, Dart, BLoC, TDD, Git, Unit & Widget Testing*

- **Partner Onboarding Portal (LOS sub-portal):** Developed the **Flutter** portal that automated partner onboarding, **cutting manual work by 90%** for **100+** partners.
- Crafted responsive layouts for **3** form factors (mobile, tablet, web) using **BLoC/Cubit** and **REST APIs**, practicing **TDD** with unit and widget tests, **code reviews** and **QA/UAT** support.

PROJECTS

Khush-Hal: MSME Health App & Field Officer Portal | Flutter, WorkManager, SQLite | GitHub

2026

- Co-developed an offline-first **Flutter** app (**WorkManager**, **SQLite**) for rural MSMEs in a **5**-member team.
- Localized the app in **2** languages (Hindi, English) with live-location maps, using **AI-assisted** development.
- Created a field-officer portal with **6** features: one-eye view, document parsing, alerts, review-based filters, **AI-driven** plans and forecasting.

ACHIEVEMENTS

- **Top 10 finish** at the NABARD Hackathon, Global Fintech Fest (GFF) **2026**, with a **5-member** team.

EDUCATION

Vellore Institute of Technology, AP B.Tech, Computer Science and Engineering · GPA 8.72 / 10 *2020 – 2024*
